LAW

Director of Law Thomas Holl requested approval of Agenda Item Nos. 2025-10-230, 2025-010-232 and 2025-10-233. Moved are the items as follows:

2025-10-230

In a memorandum dated October 7, 2025, Authorization for the Executive Director to Execute Any and All Documents Necessary Acquire Materials for the Relocation of Interstate Gas and Petroleum Pipelines Owned by Certain Utilities as Required by the New Jersey Turnpike

Authority's Interchange 1-4 Capacity Enhancements Program, RM-197213, Project No.: 5000028003, Amount: not to exceed \$3,000,000.00, was approved.

The New Jersey Turnpike Authority (the "Authority") is proceeding with its plans to make improvements to the roadway infrastructure in the area of Interchanges 1 to 4 of the New Jersey Turnpike (the "Enhancement Program"). The Enhancement Program consists of approximately 36.5 miles of road widening and associated interchange improvements from the vicinity of Interchange 1, in Pennsville Township, Salem County (Milepost 0.0) to just north of Interchange 4 in Mt. Laurel Township, Burlington County (Milepost 36.5), as well as the construction of grade-separated U-Turns within and in the vicinity of the Enhancement Program.

The Enhancement Program will impact those utilities that run along the Authority's Right-Of-Way ("ROW") parallel to travel lanes of the Turnpike. These utilities are referred to as "Longitudinal Utilities". The three impacted utilities are: Colonial Pipeline (petroleum), Sunoco (petroleum) and Transco/Williams (natural gas) (together the "Affected Utilities"). Currently, the Longitudinal Utilities are located on easements abutting the Authority's existing ROW. As a result of the Enhancement Program, the Authority's ROW line will expand to encompass the easements currently occupied by these Longitudinal Utilities. The Authority is proposing to allow the Longitudinal Utilities to remain in place with the Authority's new ROW wherever that is physically possible. Unfortunately, in certain locations, relocation of the Longitudinal Utilities will be unavoidable, and in those locations the Longitudinal Utilities will be forced to move their pipelines outside of the expanded ROW. In these instances, the Authority will acquire the necessary land either in easement or in fee to facilitate the relocations.

In order to ensure the timely relocation of those portions of the Longitudinal Utilities that must be relocated and due to the long lead time required for the purchase of the required pipe and other materials, it is necessary to initiate acquisition of these items as soon as possible. Since the pipelines in question are interstate pipelines, they are of critical national importance, subject to federal oversight, and cannot be shut down for extended periods of time. Consequently, the Longitudinal Utilities must construct new pipeline facilities outside of the ROW so that the product flow can be maintained without interruption during the construction of the Enhancement Program. In preliminary discussions, the Longitudinal Utilities have noted they require written documentation from the Authority to advance said purchases. Attached hereto is Exhibit A, depicting the estimated cost of the materials necessary to undertake the relocation of the Longitudinal Utilities for the initial relocations required for the Enhancement Program, specifically the locations for two new U-Turn structures at MP 43.03 and MP 46.07.

Therefore, it is requested that the Authority authorize and direct the Executive Director and the Director of Law, along with the advice and consent of General Counsel and the Chief Engineer, to execute any and all documents necessary to effectuate the acquisition of the materials required for the timely movement of the Longitudinal Utilities affected by the Enhancement Program provided the scope of such authorization shall not exceed \$3,000,000.00.

ORDER FOR PROFESSIONAL SERVICES (OPS)

2025-10-234

In a document dated October 21, 2025, **Recommendation to Issue Order for Professional Services No. A4247, New Jersey Turnpike and Garden State Parkway, AECOM Technical Services, Inc., General Consulting Engineering Services for the New Jersey Turnpike Authority, R-196320, Budget Code: Various, Amount: \$93,080,000.00,** was approved.

This Order for Professional Services (OPS) will provide for General Consulting Engineering Services for the New Jersey Turnpike Authority. This provision is mandated by the Authority's Turnpike Revenue Bond Resolution, Adopted August 20, 1991, as Amended and Restated September 26, 1991, and further Amended and Restated as of November 22, 1991. The required services are structured into three distinct categories: (1) Bond Resolution Core Services (services expressly mandated by the General Bond Resolution); (2) Other Core Services (routine support services for the Authority and the Engineering Department, including document maintenance, real estate support, and toll collection assistance); and (3) Supplemental Services (additional professional services requested by the Authority on an as-needed basis).

This assignment is classified as a "Complex Procurement" since the scope of work is not clearly defined and likely to change during the course of the project, and the cost exceeds \$6,000,000.00. Given the unique nature of the scope, no established prequalification codes were applicable. Consequently, a solicitation for Letters of Qualifications (LOQs) was publicly advertised and published on the Authority's website and three firms submitted LOQs by the closing date of June 30, 2025. A subsequent review

confirmed that all three firms met the stipulated qualifications; thereafter, the Review Committee recommended that Request for Proposals (RFP) to be directly issued to the three qualified firms: AECOM Technical Services, Inc., HNTB Corporation, and KC Engineering and Land Surveying, P.C.

Technical and fee proposals were received from each firm by the required date of August 22, 2025. The Review Committee evaluated each firm's technical proposal and determined that oral presentations were necessary and subsequently held on September 8, 2025. Final scoring determined that AECOM Technical Services, Inc. achieved the highest technical ranking. Furthermore, the fee proposal submitted by AECOM Technical Services, Inc. has been reviewed, negotiated, and determined to be fair and reasonable for the scope of services to be rendered.

It is therefore recommended that Order for Professional Services No. A4247 be issued to the firm of AECOM Technical Services, Inc., of Piscataway, New Jersey, in an amount not to exceed \$93,080,000.00. The Executive Director shall be authorized to approve supplementary services, specifically those of a general nature best executed by the General Consulting Engineers, via individually negotiated Work Request Authorization Forms (WRAFs). Funding for these additional services shall be formally encumbered upon the execution of each respective WRAF. The aggregate value of all such Work Requests is strictly capped at \$20,000,000.00 over the five-year period of this OPS. The cumulative total fee, encompassing bond resolution core services, other core services, supplemental services, and all WRAFs, shall not exceed \$20,000,000.00 for the five-year period.

These professional services were procured by a fair and open process, and the recommended firm was selected in accordance with N.J.S.A. 52:34-9.1, et seq., N.J.S.A. 27:23-6.1 of the Authority's enabling legislation, N.J.A.C. 19:9-2.8, promulgated pursuant thereto, and Executive Order No. 37 (Corzine 2006).

2025-10-235

In a document dated October 1, 2025, **Recommendation to Issue Supplement E to Order for Professional Services No. T3637, New Jersey Turnpike, AECOM Technical Services, Inc., Remedial Investigation and Remedial Action at Chromate Sites 20, 21 and 192, R-196897, Budget Code: 040E00006, Original OPS Amount: \$745,000.00, Amount of Supplement A: \$0.00, Amount of Supplement B: \$0.00, Amount of Supplement C: \$0.00, Amount of Supplement D: \$0.00, Amount of Supplement E: \$0.00, Total OPS Amount: \$745,000.00**, was approved.

This Order for Professional Services was issued at the September 26, 2017 Commission Meeting in the amount of \$745,000.00 to provide for remedial activities at Chromate Sites 20, 21 and 192 including completion of pre-design investigations, preparation of construction contract documents and remediation oversight in accordance with current New Jersey Department of Environmental Protection (NJDEP) regulations. The original term of this OPS was for a four-year period commencing November 29, 2017, with an expiration date of November 29, 2021.

Supplement A extended the contract by one year to November 29, 2022, at no additional cost. The extension was necessary to allow for negotiations with Conrail regarding the ongoing remediation at

Chromate Site 192 (Site 192), which is located on active railroad property owned by Conrail. The negotiations focused on securing access to Conrail's right-of-way and finalizing cost-sharing and remediation/access agreements. The Authority's counsel and Conrail representatives determined that the remediation of chromium-impacted soil required reporting to the NJDEP and could not be completed by the November 29, 2022, contract deadline.

Supplements B through D provided for additional one-year time extensions, to November 29, 2025, at no additional cost, to address ongoing negotiations and the development of remediation and access agreement with Conrail. Both parties executed an agreement on July 17, 2025, to complete the Site 192 remediation.

Supplement E will provide for a one-year, no-cost extension to this OPS, moving the completion dated to November 29, 2026. This extension is necessary to complete remediation and reporting following the recent agreement with Conrail. AECOM will continue to provide the services of a Licensed Site Remediation Professional, ensuring the work is performed in accordance with NJDEP regulations. This extension maintains project continuity and effective cost management for all environmental requirements.

It is, therefore, recommended that Supplement E to Order for Professional Services No. T3637 be issued to AECOM Technical Services Inc. without additional compensation. The original contract was procured pursuant to N.J.S.A. 52:34-9.1, et seq., N.J.S.A. 27:23-6.1 of the Authority's enabling legislation, N.J.A.C. 19:9-2.8, promulgated pursuant thereto, and Executive Order No. 37 (Corzine 2006).

2025-10-234
2025-10-235

On motion by Vice Chair Diaz and seconded by Treasurer DuPont, the Board approved Agenda Item Nos. 2025-10-234 and through 2025-10-235; and authorized and ratified, as presented, the recommendations contained therein; and received and filed the memoranda.

2025-10-236

In a document dated October 2, 2025, Recommendation to Issue Supplement A to Order for Professional Services No. T4132, New Jersey Turnpike, Boswell Engineering, Supervision of Construction Services for Contract No.T100.651, Bridge Repairs and Resurfacing, Milepost 92 to 122 and the Newark Bay-Hudson County Extension (2024), R-197174, Budget Code: 0390000004, Original OPS Amount: \$1,995,000.00, Amount of Supplement A: \$600,000.00, Revised OPS Amount: \$2,595,000.00, was approved.

This Order for Professional Services was issued at the December 19, 2023 Commission Meeting, in the amount of \$1,995,000.00. This OPS provides supervision of construction services for Contract No. T100.651, Bridge Repairs and Resurfacing, Milepost 92 to 122 and the Newark Bay-Hudson County Extension (2024).

Supplement A will provide for supervision of construction services resulting from unanticipated work under a Change of Plans within the contract limits. These services include construction inspection, material testing, record keeping, preparation of payment estimates, and other services required to ensure compliance with the contract documents. The additional construction duration is anticipated to be revised from 12 months to approximately 20 months, including closeout.

It is, therefore, recommended that Supplement A to Order for Professional Services No. T4132 be issued to Boswell Engineering, not to exceed the amount of \$600,000.00 with compensation on the same basis as the original Order for Professional Services. The addition of this amount increases the total authorized fee from \$1,995,000.00 to \$2,595,000.00. The original contract was procured pursuant to N.J.S.A. 52:34-9.1, et seq., N.J.S.A. 27:23-6.1 of the Authority's enabling legislation, N.J.A.C. 19:9-2.8, promulgated pursuant thereto, and Executive Order No. 37 (Corzine 2006).

2025-10-237

In a document dated October 1, 2025, **Authorization to Pay the NJDEP under the "No Net Loss Reforestation Act", New Jersey Turnpike, New Jersey Department of Environmental Protection ("NJDEP"), Reforestation Plans for Forest Impacts associated with the Grade Separated, U-Turn Structure at Milepost 46.1, Springfield Township, Burlington County, R-196899, Budget Code: 5000028003, Amount: \$47,520.00,** was approved.

The construction of a Grade Separated U-Turn Structure at Milepost 46.1 requires unavoidable impacts to forested areas.in accordance with the New Jersey No Net Loss Reforestation Act (N.J.S.A. 13:1L-14.2 et seq.), the Authority is required to provide mitigation for the deforestation at this location.

After substantial review and analysis, the Authority and the NJDEP have determined that mitigation in the form of on-site planting, off-site planting, and monetary compensation is acceptable. After accounting for the on-site and off-site planting efforts, the remaining compensatory obligation for this location is \$47,520.00.

It is therefore recommended that the Executive Director be authorized to execute any and all documents necessary to effectuate the payment to NJDEP not to exceed the amount of \$47,520.00 for the purposes set forth above. It is further recommended that the Executive Director be authorized to execute any such other documents and take any such other actions as are deemed necessary to effectuate the intent of this authorization.

Bidders could bid on any or all Areas. The bid was fully advertised and the seven (7) vendors listed in the Authority's database for the referenced services were notified of the procurement. On September 22, 2025, two (2) bids were received as follows:

<u>Vendor</u>	<u>Area 1</u> GSP North (per year)	<u>Area 2</u> GSP Central (per year)	<u>Area 3</u> GSP South (per year)	<u>Area 4</u> TPK North (per year)	<u>Area 5</u> TPK South (per year)
Freehold Cartage, Inc., Freehold, NJ	\$34,625.00	\$96,500.00	\$11,350.00	\$266,100.00	\$56,525.00
Interstate Waste Services of NJ, Inc., Teaneck, NJ	\$35,568.00	\$128,500.00	\$13,875.00	\$255,222.40	\$65,850.00

Departmental Estimate: \$1,800,000.00.

Bids for these contracts were procured, and the authorization being sought is to award these fair and open contracts to the lowest responsible bidders, in accordance with N.J.S.A. 27:23-6.1, N.J.A.C. 19:9-2.13, and Executive Order No. 37 (Corzine 2006).

Accordingly, authorization is requested to award contracts for removal of trash, wood, concrete and asphalt to Freehold Cartage, Inc. in an amount not to exceed \$398,000.00 for Areas 1,2,3 and 5, and to Interstate Waste Services of NJ, Inc. in an amount not to exceed \$510,444.80 for Area 4, for a total authorized amount of \$908,444.80, all subject to availability of funding at the time of service. Authorization is further requested for the Executive Director to approve each of the two (2), one-year extensions upon satisfactory performance by the vendor.

In a document dated October 9, 2025, **Swenson Spreader Parts, Trius, Inc., RM-196477 (Inventory), Budget Code: Various, Amount: \$129,757.90,** was approved.

Under this contract, Trius, Inc. will supply Swenson spreader parts that will be stored in inventory for use in repairing Authority owned spreaders used on both Roadways. The parts are vital to keep our Roadways clear of snow and ice. The bid included 38 different parts, as well as requiring bidders to submit a discount off manufacturer's list price for other miscellaneous parts. The bid was fully advertised and the eight (8) vendors listed in the Authority's database for these parts were notified of the procurement. On September 25, 2025, a sole bid was received.

<u>Vendor</u>	<u>Total Bid Price</u>
Trius, Inc., Farmingdale, NJ	\$ 129,757.90

Departmental Estimate: \$148,754.89.

Bids for these contracts were procured, and the authorization being sought is to award these fair and open contracts to the lowest responsible bidders, in accordance with N.J.S.A. 27:23-6.1, N.J.A.C. 19:9-2.13, and Executive Order No. 37 (Corzine 2006).

Accordingly, authorization is requested to award a contract for Swenson spreader parts to Trius, Inc. for a total amount not to exceed \$129,757.90, subject to funding availability at the time of ordering. Authorization is further requested for the Executive Director to approve each of two (2), optional one-year extensions upon satisfactory performance by the vendor.

2025-10-243

In a document dated October 9, 2025, **4-Ton Asphalt Hot Patch Dump Trailers (8), McGrath Municipal Equipment, LLC, R-196305 (Operations), Budget Code: 0490016030, Amount: \$376,840.00,** was approved.

Under this contract, McGrath Municipal Equipment, LLC will provide five (5) 4-ton asphalt hot patch dump trailers which have exceeded their service life and three (3) additions to the fleet. These vehicles are replacing existing older models that have reached their life expectancy and will be sold as surplus, if feasible. The bid was fully advertised on September 10, 2025, and the 11 vendors listed in the Authority's database for the referenced commodity were notified of the procurement. On September 22, 2025, four (4) bids were received as follows:

VENDOR	BID AMOUNT
Trius, Inc	\$350,240.00
McGrath Municipal Equipment, LLC	\$376,840.00
Jesco Inc.	\$388,080.00
H.A. DeHart & Son, Inc.	\$416,168.00

Procurement and Materials Management and the Maintenance Division of the Operations Department reviewed all bids and the apparent low bidder, Trius, Inc., took twenty-one exceptions to the specifications. Four (4) examples are listed below:

- 1) The bid Hopper opening is 98" form peak to peak, approximately 7.5% smaller than the specified 106" opening, lessening the width when filling with material.
- 2) The bid unit height is 79" according to supplied drawings which is approximately 8.2% higher than the specified 73" low profile allowing for access into the hopper for ability to inspect and clean the hopper.
- 3) The bid 12-gauge steel Hopper floor which is approximately 56% thinner than the specified ¼" steel.
- 4) The period of five (5) years from the invoice date they bid, does not compare to the Lifetime Trailer Frame Warranty that shall be included.

Maintenance staff concluded that these exceptions would adversely affect safety and efficiency and therefore recommended that the bid submitted by Trius, Inc. be rejected. The second lowest bidder, McGrath Municipal Equipment, LLC. took no exceptions and satisfactorily met the required specifications. Their bid of \$376,840.00 is approximately 4.8% lower than the Maintenance Department's budgeted cost of \$396,000.00.

Bids for this contract were procured, and the authorization being sought is to award this fair and open contract to the lowest responsible bidder, in accordance with N.J.S.A. 27:23-6.1, N.J.A.C. 19:9-2.2, and Executive Order No. 37 (Corzine 2006).

Accordingly, authorization is requested to award a contract for eight (8) 4-ton hot patch dump trailers to McGrath Municipal Equipment, LLC in an amount not to exceed \$376,840.00.

In a document dated October 2, 2025, **Three-Year Purchase Options**, was approved.

At prior Board of Commissioners Meetings, the Authority awarded a contract to the vendor listed herein for the referenced equipment. The contract included a 3-year option to purchase additional equipment which conform to the original specifications for that model year and two additional model years. For the final two (2) years of the options, the vendor is permitted to request a price increase from the Authority if there had been an overall price increase of the equipment in the later model years, provided that the vendor justified the price increase in writing to the Authority. In this case, the contract had manufacturer model upgrades which resulted in a price increase. After thorough review and consideration, the Operations Department finds the increases to be acceptable.

Original Award Meeting Date and Item No.	Description	Vendor Name	Requisition/ Budget Code	Quantity/ Unit Price		Total Amount	% Model Year Increase/ Decrease
May 23, 2023 Agenda Item No. 133-05-2023	Elgin Broom Bear Street Sweeper	W.E. Timmerman Co., Inc.	R-196273 (Operations) 0490016037	3	\$446,402.19	\$1,339,206.57	8.2%

Bids for this contract were procured, and the authorization being sought is to award this fair and open contract to the lowest responsible bidder, in accordance with N.J.S.A. 27:23-6.1, N.J.A.C. 19:9-2.2, and Executive Order No. 37 (Corzine 2006).

Accordingly, authorization is requested to exercise these contract options to purchase the equipment listed herein, for a total amount not to exceed \$1,339,206.57.
