Re: Increase in Multiplier Caps – Orders for Professional Services (OPS)

Dear Consultant:

Please be advised that, effective June 1, 2009, the multipliers for Professional Services have been revised as follows:

- **Design Services** - 2.8
- **Construction** - 2.35
- **Construction** - 2.50 (if complicated)

In keeping with our current business practice, these revised multiplier caps or the FAR rate, whichever is lower, will be specified in all future Requests for Expressions of Interest (RFEOs).

All future Requests for Expressions of Interest (RFEOs) will contain the new multiplier caps.
